tmdAllowable Subject Matter

Claims 10-16 are allowed.

The following is an examiner's statement of reasons for allowance: the prior art fails to show or fairly suggest a projection extending from a vibration member and facing an inner diameter of a moving element in a vibration type drive unit, wherein a bending vibration occurs in the projection when the device is driven. Further the bending vibration direction is different from the vibration generated on the surface of the vibrating member.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Direct inquiry to Examiner Dougherty at (571) 272-2022.
